Last Chance Animal List

Published on October 28, 2026

Please see below for this week's Last Chance Animals list. As a reminder, all official requests need to be submitted by 6 a.m. next Wednesday. Below are the descriptions of the animals included on the LCA list. All the animals' observation and medical notes have also been included in an attachment for your convenience.

ALL inquiries and requests regarding animals on the LCA list MUST be communicated to Animal Services through the Rescue.Coordinator@ocfl.net email address within the timeframe indicated. Failure to do so may result in a delay and failure of your message to reach the appropriate individuals at Animal Services.

Communication must be from the rescue's registered contacts.

Animal Services will not liaise with unauthorized personnel on behalf of the rescue.

Please understand we will not be able to offer extensions for any of these pets and the deadline to receive placement is firm.

To help offset the cost of care, Orange County Animal Services is offering rescue partners a $250 incentive per dog for accepting any of the dogs listed below.

The shelter is still experiencing construction activities related to the development of the new animal shelter. Please note these activities do not impact our pet placement processes, and adoptions, rescue pulls and reclaims will continue as usual.
